——, Mr. W., on railway travelling in diseases of the vertebral column, 100
——, Mr. W. B., on the present condition of railways, 17
Addenbrooke's Hospital, Cambridge, 25
Adder, the poison of the, 550, 608; the bites of the, 659
Addison's disease of the supra renal capsules, 36, 39; associated with chorea, ib.
Adulteration, a dangerous, 78; of Food Act, 230
Air, test for the purity of the, 192
Albuminuria, and anæmia in a pregnant woman: recovery after the birth of the child, 6; the effects of arsenic upon, in a case complicated with psoriasis and lichen, 68
Alcohol and alkaloids, 317
Alcoholic poisoning, two cases of, 225
Aldis, Dr. C. J. B., on the poisonous effects of coal gas upon the animal system, 100, 309
Alexander, Dr., a present from the Emperor of the French to, 651
Algiers, the Climate of (review), 149
Alkalinuria, depending upon spinal disease, and following hæmaturia, 251
Allen, Dr. P., the medical profession and life assurance offices, 557
Almoners, medical, 138
Ambulance Surgeon, the, or Practical Observations on Gunshot Wounds (review), 385
Amended Medical Act, the, 244
America, small-pox in, 362
Amputations, five different, performed on a single occasion for various diseases, 35; mortality after, 682
Anæmia lymphatica, 516
Anæsthesia in midwifery, brief remarks on, 518, 557
——, local, from cold, and its applicability to the severer operations, 636
ANALYTICAL SANITARY COMMISSION.—Bread, and its adulterations, 183; on paraffin oil, its impurities and adulterations, 333
Anchylosis, further observations on, with an account of a new operation for the restoration of motion when articular inflammation has resulted in synostosis, 326
Andaman Islanders, on the osteology and dentition of the, 63
Aneurism, treatment of, by digital pressure, 410; of the aorta, 38; of the middle cerebral artery, 39; of the extremities, on the treatment of, by flexion, 147; on a case of infra-orbitar, cure by ligature of the carotid, after failure of digital pressure, 271; iliac, case of, remedied by opening the sac, and tying the common iliac, the external iliac, and the internal iliac arteries, 602; on the treatment of, 606
Animal Kingdom, General Outline of the Organization of the (review), 667
Anus, artificial, after femoral hernia, 637
Aorta, aneurism of the, 38
Apothecaries' Hall, pass-lists of, 25, 58, 113, 137, 162, 189, 213, 239, 265, 293, 317, 340, 369, 395, 423, 447, 471, 500, 529, 558, 587, 619, 648, 678, 697
Appia, Mons. P. L., the Ambulance Surgeon; or, Practical Observations on Gun-shot Wounds (review), 385
Appointments, medical, 27, 57, 89, 114, 139, 163, 191, 215, 241, 267, 293, 319, 341, 370, 396, 423, 447, 474, 502, 532, 562, 590, 621, 651, 680
Army, health of the, 265; medical department, 137, 671; medical school, Chatham, 380; sanitary affairs of the, 317; surgeons of the, important concessions to, 104
Arnott, Dr. J., on local anæsthesia from cold, and its applicability to the severer operations, 636
Arsenic, poisoning by half an ounce of, 325
Arsenical medicage in the treatment of cancer, 220, 319
—— paper, 23, 471, 499, 691
—— poisoning, 254, 598
—— preparations, new, 294
Art and medicine, 340
Asclepiad, the (review), 690
Ashton, Mr. T. J., observations on the pathology and treatment of hæmorrhoidal affections, 350, 379
Asylum for Idiots, Earlswood, 137
Association of Medical Officers of Asylums and Hospitals for the Insane, 690
Atherospermum moschatum, on, 134
Atmospheric impurities, tests for, 654
Auscultation, on the mode of development of a musical character in sounds perceived by, 40
Australia, medicine in, 76
Austria, a new sanitary establishment in, 529; sanitary restrictions in, 619
Autoplasty of the palate, silver sutures in, 601

B

Babington, Dr. B. G., address at the Medico-Chirurgical Society, 252
——, Dr. C. M., obituary of, 138
Ballard, Dr. E., observations on the tactile sensibility of the hand, 302
——, Mr. T., on the condition of the mouth in idiocy, 160, 212
Banffshire Lunatic Asylum, the new, 649
Barkas, Mr. T. P., Outlines of Ten Years' Investigations into the Phenomena of Modern Spiritualism (review), 519
Barker, Dr., on sewer-gas, 88
Barnes, Dr. R., illustrations of clinical midwifery, 4; on the thrombosis and embolia of lying-in women, 203; note on the broncho-pneumonia of lying-in women, 280; an ovum in ovo, 411
Barham, Dr. W. R., on Dropsy connected with Disease of the Kidney (review), 281
Bastick, Mr. W., on cod-liver oil with quinine, 677
Bath, condition of dwellings at, 240; United Hospital of, 312
Bayfield, Mr. S. A., effects of railway travelling upon the urinary organs, 237
Beale, Dr. L. S., lectures at the College of Physicians, 312, 329, 384
——, Mr. J. H., midwifery statistics 557
Beaumont, Mr. W. R., clinical lecture on a deeply-penetrating wound of the head by a rocket-shaft passing through the left orbit, 238
Belfast Board of Guardians, 331
Bell, Dr. J., address and presentation to, 472
Benedict, Dr., of Breslau, death of, 587
Bennet, Dr. J. H., a Practical Treatise on Inflammation of the Uterus, its Cervix and Appendages, and on its connexion with other Uterine Diseases (review), 176
Bennett, Dr. J. R., the award of the arbitrators in the case of Dr. Stewart and Mr. I. B. Brown, 592
Bentley, Prof., on new remedies introduced into the practice of medicine, 111; on guaco, 133; presentation of a testimonial to, 659
Berlin, sanitary measures in, 649
Bethlehem Hospital arbitration, 89
Bichloride of mercury, case of poisoning by, 119
Bile and pancreatic ducts, complete obstruction to the, 328
Bird-murder, 650
Birkenhead Infirmary, 25
Births, marriages, and deaths, 27, 58, 90, 115, 139, 163, 191, 215, 241, 267, 296, 319, 341, 370, 397, 423, 474, 502, 590, 621, 651, 680, 699
Bladder, exfoliation of the female, 174; on a case of congenital inversion of the, 250; ectropy of the, 253; case of malignant disease of the, 438
Blind, home teaching for the, 663
Bodily Deformities, on the Nature, Causes, Variety, and Treatment of (review), 575
Bones, antiquity of, 312
Banks v. gold medals, 398
Botanic Gardens at Chelsea, the, 698
—— Terms, a Manual of (review), 576
Bouchin's (M.) investigations on hydrophobia in different parts of Europe, 25
Bowman, Mr. W., resignation of, 670
Boys' dresses, 373
Bradford Infirmary, 698
Bradley and Bourdas, Messrs., on new remedies, 315
Bradshaw's Invalid Companion to the Continent (review), 149
Brain, hydatids of the, 122; amyloid (?) tumour of the, ib.; of man and animals, on the, 154
Brandt, Dr. G. H., Madeira and its climates; with meteorological observations, 1861-62, 661
Brandy, test for, 471
Brassfounders' ages, on, 223
Breach of professional honour, 234
Bread and its adulterations, 182
Bread-making by machinery, 416
Breast, atrophic scirrhus of the, 410; cystic tumour of the, 285
Bretonneau, M., death of, 239; funeral of, at Tours, 530
Brierre de Boismont, Des Hallucinations ou, Histoire Raisonnée des Apparitions, des Visions, des Songes, de l'Extase, du Rêves, du Magnétisme, et du Somnambulisme (review), 123
Brighton, drainage of, 78; the sewerage of, 153, 640, 697; on the climate of, in pulmonary consumption, 429
Bright's disease of the kidneys, terminating in uræmia and death, 687
Brinton, Dr. W., clinical remarks on the cure of phthisis, 4
Bristol Royal Infirmary, 340
British Association for Advancement of Science, 629
—— Lying-in Hospital, 162
—— Medical Association, the, 580
—— Museum, 619
—— Pharmacopœia, the, 129
—— Poisonous Plants (review), 234
Britten v. Dowling, 239
Brodhurst, Mr. B. E., further observations on anchylosis, with an account of a new operation for the restoration of motion when articular inflammation has resulted in synostosis, 326; observations on old dislocations, and on their reduction, 685
Brodie, Sir B. C., testimonial to, from the Council of College of Surgeons, 509; Psychological Inquiries (review), 666
Bronchitis, Dr. Marshall Hall's plan for the relief of, 347
Broncho-pneumonia of lying-in women, note on, 280
Brown, Mr. A., on the treatment of aneurism, 606
——, Mr. A. G., vaccination tube, 697
——, Mr. I. B., retained menses of two years'

duration, caused by atresia vaginæ, and treated by puncture of the uterus per rectum, 175; on ovariotomy, the mode of its performance, and the results obtained at the London Surgical Home, 303; on vesico-vaginal fistula, 401, 432; and Dr. Stewart, the award in the case of, 592
Brussels, Royal Academy of Medicine of, 649
Bryant, Mr. T., Clinical Surgery: the Surgery of the Mouth, Pharynx, Abdomen, and Rectum including Hernia (review), 177; an analysis of 230 cases of lithotomy, 459
Buck, Dr. T., the late, 396
Buckle, Mr., death of, 671
Buenos Ayres, British degrees in, 653
Burial Bill, the, 650
Butcher, Mr. R., Reports in Operative Surgery (review), 385
Butterfield, Mr. W. H., medical coroners, 700

C

Cadets, sickness of the, 239
Cadge, Mr. W., lithotomy statistics, 491
Cæcal portion of the intestines, on some affections of the, with illustrative cases, 98
Cæruleum, 519
Cæsar v. Bullen, 136
Calculus, cancerous, filling the entire bladder, removed piecemeal by the median operation and a modification of the bilateral method, 5; a very large, 198, 301; large encysted, 328
Callanan, Dr., of Cork, death of, 472
Calloway, Mr. T., on the condition of the mouth in idiocy, 264
Calomel and common sense, 494
Camberwell House Asylum, 89
Cambridge, University of, the Chancellorship of, 25; anatomical museum at, 88; the vacant professorship of Chemistry at, 113; pass-lists of, 190, 649, 649; medical studies at, 229; medicine and surgery at, 285, 294; plums at, 388, 391; the Duke of, and medical claims, 694

A MIRROR OF THE PRACTICE OF MEDICINE AND SURGERY IN THE HOSPITALS OF LONDON.

CANCER HOSPITAL.—Carcinoma of the spine and of both breasts; fatal result, 514
CENTRAL LONDON OPHTHALMIC HOSPITAL.—Operations of solution and extraction in hard cataract, 354
CHARING-CROSS HOSPITAL.—The potassio-tartrate of iron in rheumatism, 37—Chronic peritonitis, with purulent effusion; paracentesis on two occasions; recovery, 67—Paraplegia, with fracture and displacement of the spine, the result of a fall; recovery, 301—Two cases of alcoholic poisoning in a high degree; recovery, 325—Case of nephritis, followed by typhoid symptoms and pyuria; recovery, 498—Substance of a clinical lecture on a case of the so-called "pulsating empyema of necessity;" recovery of the patient, 573
GREAT NORTHERN HOSPITAL.—Case of severe contusion of the intestines; recovery, 354
GUY'S HOSPITAL.—Carcinomatous tumour in the shaft of the tibia; amputation through the thigh; recovery, 35—Myeloid tumour in the head of tibia; amputation of the thigh; recovery, ib.—Enchondromatous tumour of bone, ib.—Hysterical movements of the left arm, cured by the valerianate of zinc, 69—Extraction of the coronoid process and a portion of the horizontal ramus of the lower jaw for necrosis, 98—Intra-uterine fibrous polypus; removal by Dr. Hicks' wire-rope écraseur; recovery, 121—Sudden death in a case of amputation of the testicle for malignant disease, 222—Poisoning by half an ounce of arsenic; death; ecchymosed spots in the interior of the heart, 325 Cases of vesico-vaginal fistula; operation and recovery, 353—Clinical remarks on two cases of laceration of the perineum through the sphincter and recto-vaginal septum, 489—Carcinoma of the spine, heart, intestines, and other organs; paraplegia; death, 514 — Two complicated cases of ruptured perineum, treated by operation, 635—Bright's disease of the kidneys; termination in anæmia; tracheotomy; death, 637
HOSPITAL FOR SICK CHILDREN.—Excision of the knee-joint, dislocated for four years from strumous disease; good recovery, 406—Attempted excision of the knee; amputation; recovery, 407
KING'S COLLEGE HOSPITAL.—Adipose tumour situated over the hip-joint; successful enucleation, 120—Lodgment of a foreign body in the vagina; successful extraction, 121—Extraction of a musket-ball after being lodged for three years in the thigh, 146—Stone in the bladder, complicated with a fungoid tumour; lithotomy; fatal result; autopsy, 171—Stone in the bladder of a child nearly three years old; lithotomy; rapid recovery, 200—Imminent suffocation from croup; tracheotomy; recovery, 276—Acute laryngitis after parturition; tracheotomy; recovery, 277—A second excision at the knee-joint, with wound of the popliteal artery; amputation through the joint; recovery, 382—Extensive disease of the shoulder, with abscesses and sinuses; excision of the joint; recovery, 457—Clinical remarks on a case of painful ulcer of leg, with division of popliteal nerve; subsequent amputation at the knee-joint; recovery, 497—Clinical remarks on a case of stricture of the female urethra, 515—Disease of the hip-joint; absorption of the head of the femur; removal of carious fragments; recovery, 541—Clinical remarks on a case of peculiar tumour above the wrist, with an irregular radial artery, 601—Clinical remarks on a case of tumour of the upper jaw, successfully removed, 635 — Stone in the bladder, crushed on several occasions; recovery, 663—Stone in the bladder of a man eighty-one years of age; lithotomy; recovery, ib.
LONDON HOSPITAL.—Sternal venous murmur in a case of spanæmia and lead cachexia, 68—Prolapsus of the rectum in the adult; partial sloughing and cure of the prolapse by ecatrization, 120—Tumour of the neck, consisting of a mass of hypertrophied glands; successful removal, ib.—Abscess of the neck; difficult deglutition; recovery, 223—Lithotrity in a boy four years of age; stone crushed in one sitting; cure a week after the operation, 252—Strumous disease of the knee-joint of many years' standing; excision; fatal result, 407—Stenosis œsophagi; laryngoscopic examination; death; autopsy, 435—Vesico-vaginal fistula complicated with urethral stricture; one operation; cure, 515, 543—Clinical remarks on a case of close stricture of the urethra in the female, cured by forcible dilatation, 634
LONDON SURGICAL HOME.—Encysted tumour of the labium; ablation of the entire cyst, 121
METROPOLITAN FREE HOSPITAL. — Thirty-third consecutive case of lithotomy and recovery, 173
MIDDLESEX HOSPITAL.—Caries of the pelvis and femur: excision of the head of the femur; clinical remarks, 542—Clinical remarks on a case of obstinate contraction of the right knee-joint, 601
NATIONAL HOSPITAL FOR THE PARALYSED AND EPILEPTIC. — Cases of epilepsy successfully treated, 145—Cases of reflex and infantile paralysis, 252
ROYAL FREE HOSPITAL.—Cases illustrating the value of valerianate of ammonia in the treatment of neuralgia, 69—Large mulberry calculus, attached to the bladder, and partially encysted; lithotomy; recovery, 172—Internal strangulation of intestine by a band of fibrin; fatal peritonitis, 251—Two cases of poisoning by fungi, treated by enemata of strong coffee; recovery, 325—Typhus complicated with organic disease of liver, kidneys, and supra-renal capsules; fatal result; autopsy, 435—Clinical remarks on a case of fatty degeneration of the kidneys, and fatty transformation of the pancreas, 498—Chronic traumatic orchitis; recent sloughing of the scrotum and protrusion of the testicle; ablation; recovery, 636
ROYAL MATERNITY CHARITY.—Condensed statistical report for 1861, 200
ST. BARTHOLOMEW'S HOSPITAL.—Albuminuria and anasarca in a pregnant woman; recovery after the birth of the child, 6—Sinus in the thigh, communicating with a chronic abscess, 34—The influence of arsenic upon albuminuria, in a case complicated with psoriasis and lichen, 68—Necrosis of the lower jaw from the fumes of phosphorus; removal of the disease on several occasions, 99—Necrosis of the upper jaw; removal of the whole of the bone; recovery, ib.—An instance of urinary paraplegia, the result of reflex action; very slight anæsthesia; recovery, 145—Convulsive action of the left arm and leg, brought on by sexual excesses, ib.—Stone in the bladder, with symptoms of twenty-three years' duration; lateral lithotomy; extraction of a calculus weighing upwards of nine ounces; recovery, 199—Large neuromatous tumour in connexion with the sciatic nerve; successful enucleation, 221—Alkaliuria depending upon spinal disease, and following hæmaturia, 251—Nævus situated upon the inner surface of the left cheek; excision, 278—Sequel to the case of lithotomy in which the stone weighed upwards of nine ounces; fatal result, 301—Excision of the knee-joint after fifteen months' unavailing treatment for disease; recovery with a good limb, 382—Suppuration of the knee-joint, with an abscess in the head of the tibia; excision; recovery, 384—Superficial disease of the tongue for eight years; successful removal, 459—Very large vesical calculus in a boy eleven years of age; lithotomy, ib.—Good effects of charcoal enemata on the evacuations of dysentery, 515—Empyema after acute pleurisy; paracentesis; washing out of the chest, and use of a drainage-tube, 572 — Ununited fracture of leg; all treatment nugatory; amputation; recovery, 664—Rheumatic arthritic effusion, resisting all treatment, cured by an attack of typhus fever, 667
ST. GEORGE'S HOSPITAL. — Enormous calculus, filling the entire bladder, removed piecemeal by the median operation and a modification of the bilateral method, 5—Hypertrophy of the heart, hydrothorax, and diseased kidneys; fatal result in twenty-four hours, 36—Chronic peritonitis, with effusion; disease of the liver and heart; fatal result; autopsy, 67—Encysted tumor of the labium of ten years' growth; treatment by puncture and free incision, 121—Acute eczema associated with a general breaking of the skin; fatal result; absence of any internal disease, 146—Sequel to a case of calculus, filling the bladder; fatal result, 172—Stone in the bladder of large size; failure of lithotrity; extraction piecemeal by lithotomy; probable recovery, 199—Perineal section after destruction of four inches of the penis, 222—Rheumatism and cardiac disease, followed by diphtheria; death from purulent infiltration of the lungs, 250—Excellent stumps of the forearm in amputation by means of muscular flaps and circular incisions through the skin, 277—Good recovery of the recent case of lithotomy, in which the calculus weighed four ounces, 301—A case of excision of the knee-joint for recent strumous disease; recovery with a good limb, 408—Malignant disease of the lung; diseased kidneys; death, 459—Effusion of blood into the spinal canal in a case of chorea, 515—Empyema after acute pleurisy, the sequel to nephritis after scarlatina; death, 574—Empyema, and phthisis in the third stage, with vomiting; fatal result, 575—Substance of a clinical lecture on a case of embolon of the femoral artery, producing gangrene of the foot; fatal result, 599—Tubero-cystic tumour situated over the inner malleolus; removal, 636—Nævus of the scrotum, extending to the urethra, 638
ST. MARY'S HOSPITAL. — Addison's disease of the supra-renal capsules; chorea; fatal result, 36—Excision of both superior maxillary bones, both palatal bones, both inferior turbinated bones, vomer, and part of the ethmoid bones; recovery, 76—Excision of the left superior maxillary bone; recovery, 97—Stone in the bladder, the nucleus of which consisted of pieces of sponge; lithotomy; recovery, 171—Stone in the bladder; lateral lithotomy with the straight staff; recovery, 199 — Wound in the throat between the hyoid bone and the thyroid cartilage; free hæmorrhage; recovery, 277—Injury to the perineum and urethra; perineal section; good recovery, 458—Pulsating empyema after acute pleuritis; a swelling above the left nipple which burst spontaneously; recovery, 573—Congenital phimosis in a lad aged seventeen years, remedied by operation, 636—Cancerous degeneration of the lower end of the femur, in a man seventy years of age; amputation; good recovery, 637
ST. THOMAS'S HOSPITAL.—Addison's disease of the supra-renal capsules; fatal result, 37
UNIVERSITY COLLEGE HOSPITAL. — Five different amputations performed on a single occasion for various diseases, 35 — Disease of the shoulder, with formation of abscess; excision of the joint; recovery, 458—Embolon of the left femoral artery, producing gangrene of the leg; amputation; fatal result, 600—Clinical remarks on a case of oxalate of lime calculus of small size, crushed successfully at one sitting, 663
WEST LONDON HOSPITAL. — Successful treatment of severe stricture by continuous dilatation, 6—Hysteria; wilful self-infliction of injury, 335—Excision of the elbow-joint for scrofulous disease of twenty years' standing; recovery, 542—Autoplasty of the palate; silver sutures, 601
WESTMINSTER GENERAL DISPENSARY. — Fibrous tumour over the carotid artery; successful removal, 305
WESTMINSTER HOSPITAL.—Encysted tumour of the labium; removal of the entire cyst, 121—Small pebble lodged in the urethra of a boy; successful removal, 223—Poisoning by opium and gin; fatal result, 326 — Case of malignant disease of the bladder, 436—Clinical remarks on amputation of the leg, in a case where pulmonary tuberculosis was present, 516 — Four cases of disease of the hip-joint, for which excision was performed in three, 540 — Empyema and pneumothorax after acute pleurisy; paracentesis twice; complete recovery under the use of drainage-tubes, 571—Fibroid tumour recurrent after amputation at the shoulder-joint; removal; recovery, 664—Pedunculated body within the bursa situated over the left patella; successful extraction, 665
Mitchell, Mr. J., on the treatment of indolent ulcers, 29; on lichen Icelandicus, 263; on Iceland moss, 371
——, Mr. J. T., on puerperal peritonitis, its nature and treatment, 461
